*"Saint Malachy School, located in the Florence District of South Central Los Angeles, serves to provide a strong Catholic educational foundation.*

*The dynamics of South Central have always been in constant transition. With so much change, our neighborhood lacks a past to draw upon. The surrounding area is one permeated with economic hardship, misunderstanding and diminishing expectations. As a result, crime, gangs, intolerance, and fear have penetrated every aspect of our community. Those who live in our community search for hope and identity.*

*Saint Malachy School is dedicated to improving the life of the community through the empowerment of our children. We offer hope and a positive faith centered identity. We are committed to break the cycles of poverty, ignorance, and spiritual emptiness.*

*Saint Malachy School is a safe haven, providing students with the knowledge, experience, and the courage to dream beyond the boundaries of South Central Los Angeles.*

*We have established a faith community that fosters the full growth of each individual-spiritual, aesthetic, intellectual, physical, and social. We foster self-assurance in students, which enables them to preserve and overcome.*

*We provide educational programs that enhance students' ability to problem solve, think critically, think morally, and to make informed-intelligent decisions. Moreover, we strive to cultivate a life-long love of learning.*

*We appreciate parents as the primary educators and a powerful force in the educational and spiritual growth of our children. We also recognize that the dynamics of the community sometimes place our parents at a disadvantage. As such, our goals extend beyond the students and into the family, where we strive to be a system of support for our parents.*

*Our school climate encourages each individual student, parent, and educator to develop and nurture a system of Christian values, which will enable the individual to respond to an ever-changing world, and to live as a responsible contributor to our human community."*
